

Connect OpenAir to NetSuite Expenses

OpenAir's out-of-the-box SuiteConnect service allows the synchronization of Expense Reports from OpenAir to Netsuite, but it does not allow expense reports originating in NetSuite to transfer to OpenAir. This integration is built to solve that specific business problem for clients whose expenses either originate in NetSuite or are integrated into NetSuite from a 3rd-party expense tool (Concur, Expensify, etc.).

What Data Is Exchanged?

Expense Categories are first synchronized between OpenAir and Netsuite, followed by Approved Expense Reports. Fields within the Expense Receipts can be included in the integration with Netsuite.

In addition to this, logic can be used to filter or map the Expense tables to respect Netsuite Classification structure.

Common Questions

Do I need a middleware product To send NetSuite expense reports to OpenAir expense reports?

No.

Can I only integrate expense reports for professional services employees?

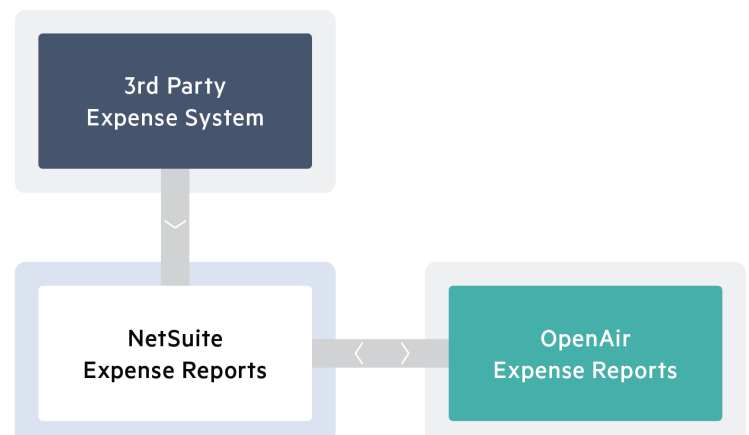

Yes

Can I bill thos expenses in OpenAir back to my Client?

Yes

Benefits of OpenAir Integration Services

- Dedicated team experienced in OpenAir and integration best practices
- Leverage the strength of each systems intended purpose
- Improve speed at which information is available
- Increase communication accuracy across your business units

Our Approach

We follow a simple and straightforward approach that delivers a superior solution.

1

Business Model Alignment and Design

- Use of workshops to identify system ownership by department.
- Review of data ownership by system.
- Determine data workflows, frequency, and integration technology/software.

2

Integration Build Out and Validation

- Gather field specifics from each system for mapping and transformation needs.
- Configure and connect integration technology to end systems.
- Establish use case and testing scenarios to confirm performance, design, error handling, and more.

3

Deploy and Monitor

- Support migration to a production environment with live data.
- Assist with data alignment needs and system outage coordination.
- Establish monitoring activities to ensure continued success.

Integration Tools We Use

We primarily utilize NetSuite OpenAir's native APIs to connect OpenAir to other systems. We also have deep experience with Dell Boomi AtomSphere® and NetSuite OpenAirCONNECT with additional leading integration products continually being evaluated and added to our tool set. Our integration experience combined with our expertise in NetSuite OpenAir allows us to help you quickly and smoothly design and implement the data integration exchanges for your specific PS business model.
