

Top Step's Attachment Reduction Service for NetSuite OpenAir

Maximize Storage, Minimize Costs

Is your OpenAir system bursting at the seams? Top Step's Attachment Reduction Service (ARS) is the smart solution for professional services organizations looking to optimize their data storage without compromising on accessibility or breaking the bank.

The Challenge:

OpenAir's 10 GB storage limit can quickly become a constraint for growing organizations. Traditional solutions like archiving or purchasing additional storage are often costly, time-consuming, and can hinder quick access to important documents.

Our Solution:

The Attachment Reduction Service by Top Step

- Intelligently compresses image and PDF files
- Maintains file clarity and readability
- Keeps compressed files attached to their original records
- Provides ongoing management of new attachments

Key Benefits:

1. **Dramatic Storage Savings**
 - Average file size reduction of 75%
 - Store up to 4x more attachments within your current allocation
2. **Cost Efficiency**
 - Avoid expensive storage upgrades
 - Reduce data management costs
3. **Improved System Performance**
 - Faster file retrieval and system operations
 - Enhanced user experience
4. **Compliance and Accessibility**
 - Keep all files readily available for audits and reporting
 - No need for external archives or complex retrieval processes
5. **Seamless Integration**
 - No disruption to your current OpenAir workflows
 - Files remain attached to their original records

How It Works:

Initial Assessment — We analyze your current OpenAir storage usage.

Comprehensive Scan — All attachments in your system are identified.

Intelligent Compression — Advanced algorithms compress files without quality loss.

Seamless Replacement — Compressed files are reintegrated into your OpenAir system.

Ongoing Optimization — Optional monthly service to manage new attachments.

Real World Results:

Based on a typical client use case, a random sample of 50 image files from an OpenAir instance were processed:

- Every file's size was reduced by a minimum of 62%
- Some files were reduced by as much as 97%
- The average reduction was 75%

Ready to Optimize Your OpenAir Experience?
